

SEIA – R&D Committee

■ **GOALS:** to advocate for and justify larger solar program budgets in Washington

■ **R&D Committee**

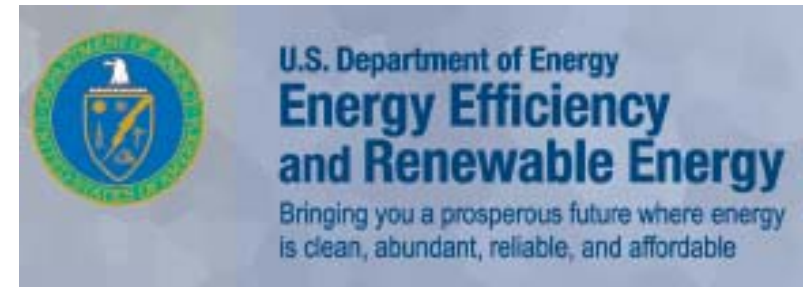

→ Comprised of technical representatives of SEIA member companies representing all technologies – CSP, PV and SHW

→ Focus:

- ◆ Provide guidance for DOE R&D programs
- ◆ Provide SEIA with support for its lobbying efforts to increase Federal R&D budgets for all solar technologies

SEIA – R&D Committee

ACTIONS:

- Need to develop a list of the top 3 or 4 R&D priorities for the CSP industry with cost estimate and time frame
- Fred and I are members of the R&D Committee and we will present the information to the Committee on behalf of the CSP Industry
- A R&D Committee conference call will be held within the next few weeks to coordinate and finalize the Solar R&D priorities for CSP, PV and SHW.
